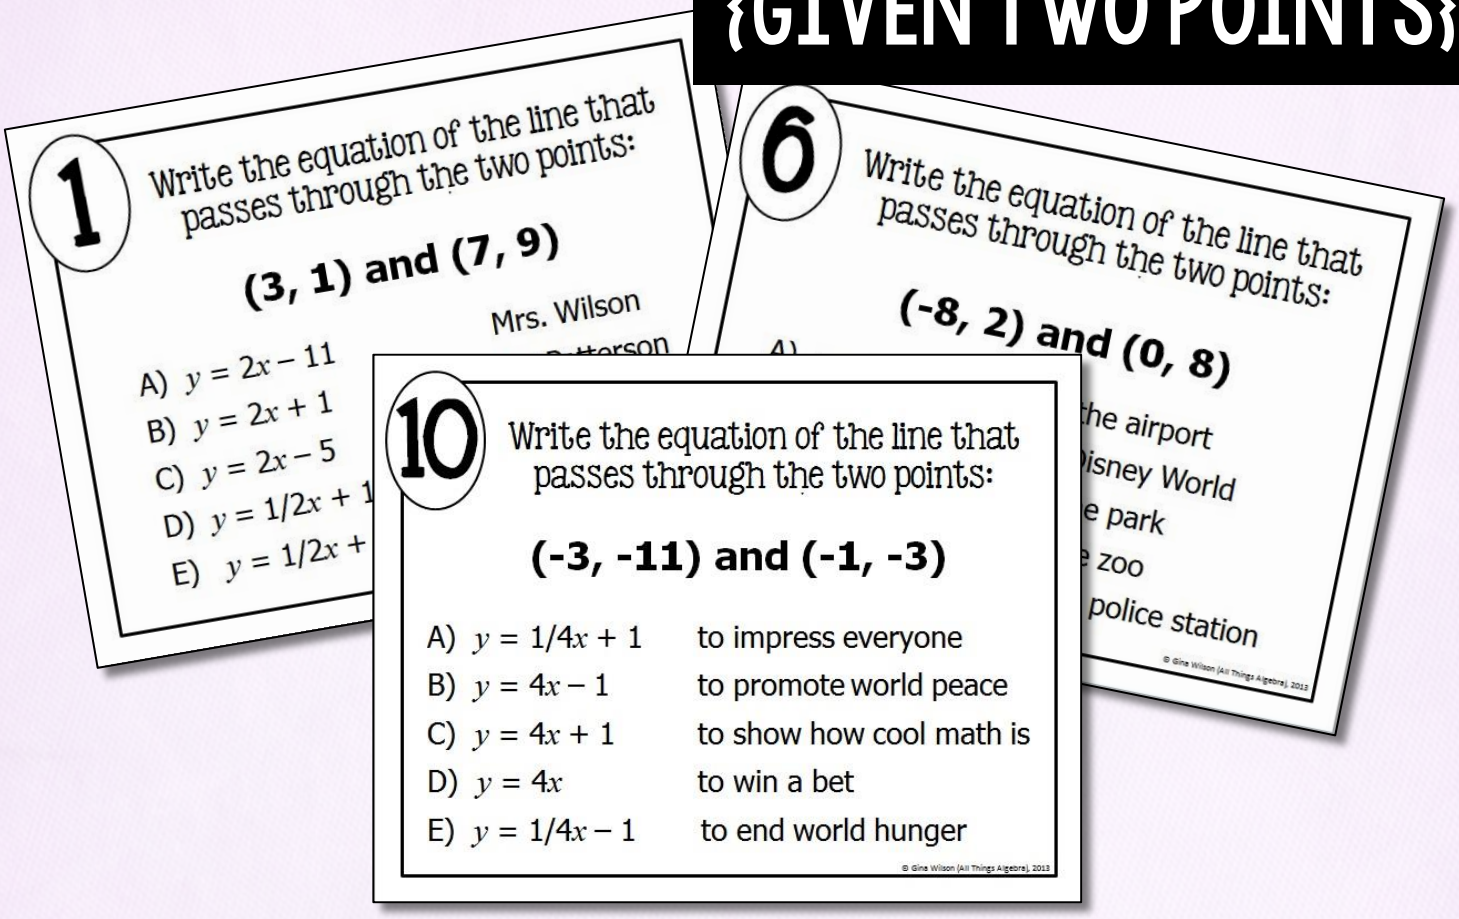
{GIVEN TWO POINTS}



WRITING LINEAR EQUATIONS

MATH LIB ACTIVITY

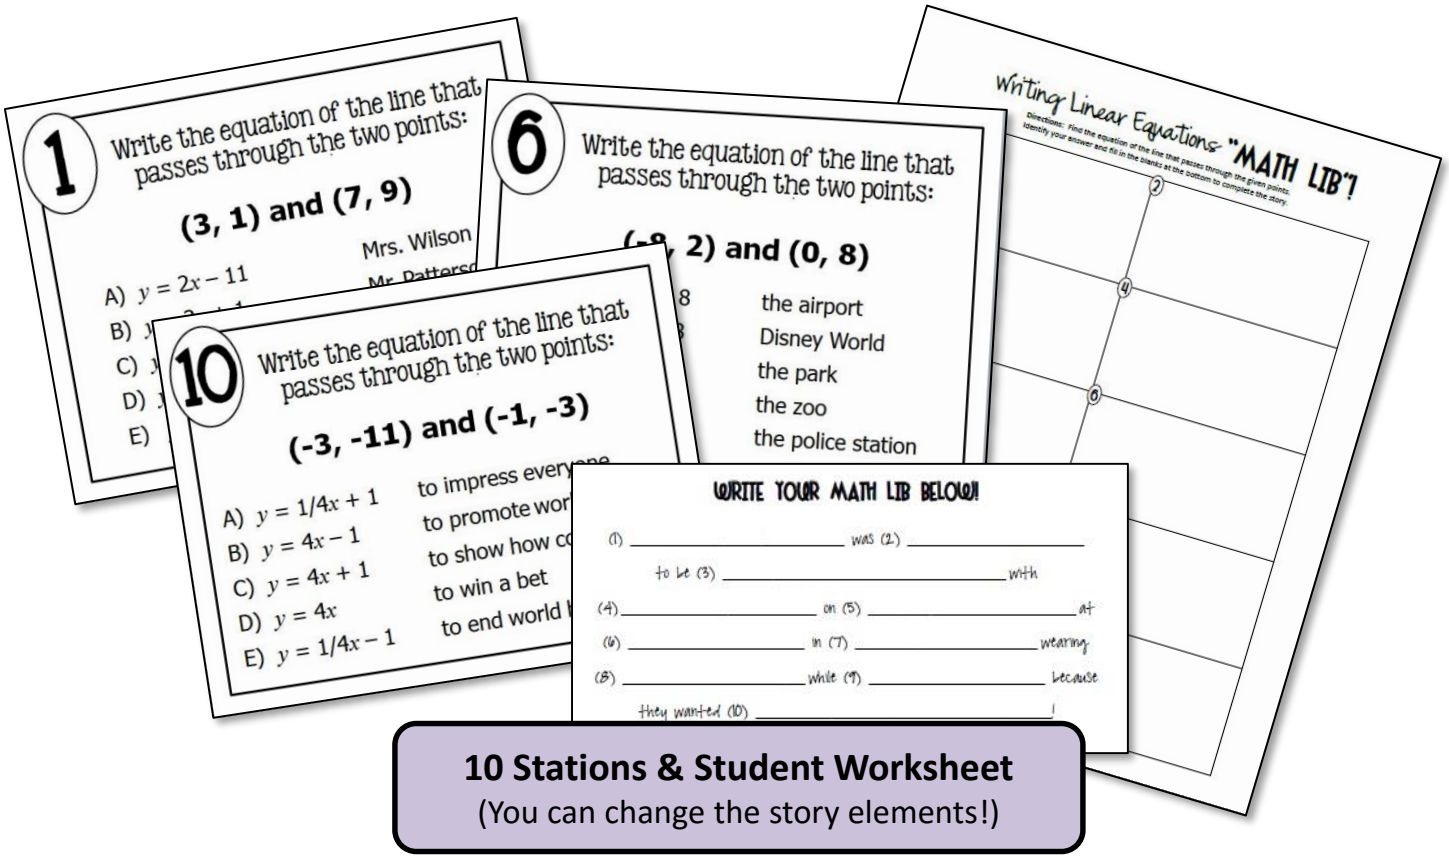
Created by: ALL THINGS ALGEBRA

Writing Linear Equations
{Given Two Points}
"Math Lib" Activity!

Objective: To practice writing linear equations given two points.

Activity Directions: Print and post the ten stations around the room. Give each student the worksheet to record their work as they travel to the stations. Group students (I typically do groups of 3) and assign to a starting problem. Set the timer for 2-3 minutes (more if needed). Students find the equation of the line that passes through the given points. They look for their answer and record the piece to the story. When the timer goes off, they move to the next station.

You are able to edit each slide to change the teacher name and all story elements to personalize for your students. PowerPoint is required to edit the slides. They enjoy seeing which one of their teachers is the "star" of the story!



10 Stations & Student Worksheet
(You can change the story elements!)
