

FLY-SWATTER

PowerPoint Bingo

GAME TEMPLATE

"Fly-Swatter"

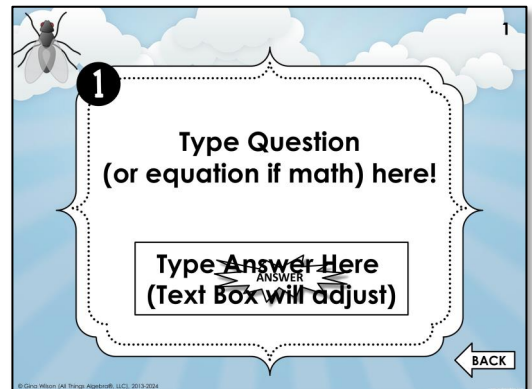

POWERPOINT TEMPLATE

Game Directions:

1) Edit Slide #1 to contain your game topic.
Just type over <INSERT TOPIC HERE>.

2) Type in your questions and answers into the question slides. There are 25 total question slides. Just type over "Type Question Here" and "Type Answer Here"

3) Scatter the answers on 5x5 bingo boards for the students to use. Some teachers choose to have their students create their own boards. If you are interested in using my bingo boards template, [click here!](#) It uses Microsoft Word's "Replace All" feature to generate the boards.

4) Play! Students either throw a Koosh ball at the board to hit a fly, or simply come up to the board. No Smart Board? No problem! Students can just come up the computer to select a fly. Once a fly has been hit, it will deactivate and turn into a fly-swatter.

NOTE: You MUST have PowerPoint for this game to work. The animations required do not work with Google SLIDES or other presentation programs.
